1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 10, 2007 has been entered.

Page 2

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1, 3-5, 9, 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Meyer (EP 0,259,713, pages 3-4) in view of Fujimori et al as set forth in paragraph nos. 7, 8 and 10 of the October 31, 2003 Office action.
- 4. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Meyer in view of Fujimori et al as applied to claims 1, 3-5, 9, 11 and 12 above, and further in view of Gil et al as set forth in paragraph no. 9 of said Office action.
- 5. Claims 1, 3-6, 9, 11 and 12 are also rejected on the ground of res judicata since the rejection of current claim 1 (formerly claim 10) and all remaining claims, as set forth above, was affirmed by the Board of Appeals in Appeal No. 2005-1949.
- 6. Applicant's arguments filed September 10, 2007 have been fully considered but they are not persuasive. The lactosucrose disclosed in Fujimori et al is a type of

Art Unit: 1794

fructooligosaccharide (FOS). Thus, applicant's remark with regard to any expectation of success lacking for FOS in Fujimori et al is without merit.

Applicant's comment about the harmful effects of using lactose in canine feeds, as discussed in Meyer, is not convincing. Meyer discloses that such harmful effects may result only if lactose feeds are used exclusively in feeding canines and only if used in large amounts. Meyer guards against this very problem by reducing the lactose content in such feeds to a level less than 30%, preferably 1-25% (page 3, 5<sup>th</sup> paragraph). Applicant's comment with respect to Gil et al was not found to be convincing by the Board of Appeals in Appeal No. 2005-1949, pages 19-20.

Lastly, applicant's contention regarding the res judicata rejection is untenable, as current claim 1, although amended, is the same as claim 10 in Appeal No. 2005-1949, the rejection of which was affirmed.

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Application/Control Number: 09/829,168

Art Unit: 1794

Page 4

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can normally be reached on Monday-Friday from 10:30 AM to 8:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton I. Cano, can be reached on (571) 272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
